WORLD WATER AWARD

WIN THE **AVK WORLD WATER** AWARD

A photograph of two men in a factory or industrial setting. The man on the left, with a beard and wearing a grey shirt, is gesturing with his hands as if explaining something. The man on the right, wearing a light blue button-down shirt, is looking at a large, blue industrial valve assembly. The valve has several gauges attached to it. The background is a blurred industrial environment with brick walls and machinery.

WORLD WATER AWARD

SHARE YOUR STORY WITH US, AND WIN PARTICIPTION ON OUR EXCLUSIVE TWO-WEEK SUMMER SCHOOL

WORLD WATER DAY, ON 22 MARCH EVERY YEAR, IS ABOUT FOCUSING ATTENTION ON THE IMPORTANCE OF WATER. THIS YEAR'S THEME IS WATER AND CLIMATE CHANGE – AND HOW THE TWO ARE INEXTRICABLY LINKED

At AVK, we focus on water's complete journey through society, and on the utmost efficient management in all aspects. This includes minimising water losses and NRW, applying smart management solutions, and in considering wastewater and waste as valuable sources to energy.

To promote the global Water Day, AVK invites customers and partners to take part in a contest that focuses, not only on World Water Day, but also on our common UN sustainable development goals. By combining goal no 6: "Clean water and sanitation for all" and no 4: "Quality Education", our summer school aims at a more sustainable water infrastructure, where we use and manage our

available resources wisely - both in terms of the water circle through society and the energy circle.

To participate, simply submit your best case story (in English) that reflects a contribution to a more sustainable water journey. This could be an optimised water supply, delivering safer drinking water to the community, an NRW level reduction, a wastewater/waste to energy project, or a smart concept to assist in more efficient management.

The contest is global, and we urge all to contribute with their case stories, preferably including mention of AVK products.

THE WINNER PRIZE IS A SPOT ON THIS YEAR'S WATER SUMMER SCHOOL - AN INTENSIVE, TWO-WEEK COURSE ABOUT "ADVANCED WATER CYCLE MANAGEMENT" IN LÅSBY, DENMARK.

FOR 1 PERSON INCL. COURSE FEE, FULL ACOMMODATION & TRANSPORTATION, VISIT TO THE AVK HEADQUARTERS AND ROUND-TRIP FLIGHTS (ECONOMY CLASS)

SEND YOUR STORY TO:
[**WORLDWATERDAY@AVKVALVES.COM**](mailto:WORLDWATERDAY@AVKVALVES.COM)

YOUR CASE STORY MUST BE IN OUR HANDS NO LATER THAN MARCH 2ND, 2020.

THE WINNER WILL BE CONTACTED DIRECTLY, AND WILL BE ANNOUNCED ON THE GLOBAL AVK WEBSITE AND LINKEDIN PAGE ON WORLD WATER DAY THE 22ND OF MARCH 2020.
